

Learning Objective 1: To multiply at least 2 digit numbers accurately and efficiently

Learning objective 2: To extend to repeated multiplication

Evaluate the following:

13×9	28×17	321×22
5126×8	9812×32	76×21389

Now, try the following:

$52 \times 32 \times 65$	56^3	17^4
--------------------------	--------	--------

Looking for patterns:

Work out the following

11^1 11^2 11^3 11^4 ...keep on going

Learning Objective 1: To multiply at least 2 digit numbers accurately and efficiently
